SCHOOL GIRLS.

School girls are proverbially pretty. Fact is, it's a pretty age—that time in a girl's life when she has all the beauties of womanhood without the later lines of care and worry

But here and there even among school girls appear pale drawn faces—a dullness and lack of freshness which tells a plain story of thin blood.

Now this is not right. But Scott's Emulsion can make it right. Scott's Emulsion is what these pale girls need. Scott's Emulsion brings back the beauty to their faces because it is blood food.

THE SHERIDAN HORROR.

Death List Growing—Official Inquiry Now in Progress.

Pittsburg, May 15.—The casualty list resulting from Monday's disaster at Sheridan continues to grow. Two more deaths are reported—Albert Berry, aged ten years, and Conrad Flick, aged forty-three years—swelling the death list to twenty-six, and it is believed this will be increased to forty before the last reports are received from the hospitals and homes where the stricken victims are lying.

The number of injured is constantly increasing, and the known list now exceeds 350. Many, however, are not serious. Six houses were totally destroyed by the explosions, and it is estimated that 1,500 other buildings were damaged. The property loss is placed at \$175,000.

Traces of the wreck in the Panhandle yards at Sheridan are rapidly disappearing, and soon there will be practically no marks of the dire calamity of Monday evening. Still it will be weeks before the last evidences of the fury of the fire are wiped out, as houses in the vicinity, trees and even grass show where the blazing oil laid its burning hand.

An official investigation into the cause of the explosion is now in progress in the offices of the Panhandle Railroad company.

PROGRESS OF SUGAR INQUIRY.

Buyer Rionda's Views on Bill Passed by the House.

Washington, May 15.—Emanuel Rionda, raw sugar buyer, was a witness before the senate committee on relations with Cuba. He said his firm had contracts with many Cuban plantations for their sugar and had advanced money to planters. If the planters sold to any one else, the firm would get a commission. The bill passed by the house would wipe out the countervailing duty, he said, and would tend to stop sugar refining in this country. Germany would be the sugar producer of the world, and Cuba, Porto Rico and Hawaiian sugar would be injured.

Heyward G. Leavitt, president of the Standard Beet Sugar company of Leavitt, Neb., said the refiners received all the benefit of the countervailing duty and would receive all the benefit of concessions to Cuba. He thought the effect of the action of the Brussels conference would be to restore normal conditions in sugar producing, which would benefit Cuba. England would begin to refine again and make a market for Cuban sugar.

MORGAN'S LATEST.

Spanish Company May Be Drawn Into the Shipping Trust.

Madrid, May 15.—It is reported here that J. Pierpont Morgan is coming to Spain in order to negotiate for the entry of the Spanish Transatlantic company into the Atlantic shipping combine. Officials of the Transatlantic company, however, informed the correspondent that they have not yet received proposals on the subject, but they would not reject the idea of discussing the matter if Mr. Morgan comes.

The company is subsidized by the Spanish government, and, in view of the present condition of the treasury, it would gladly cancel the arrangement. Indeed the question of its cancellation has already been warmly debated in the chamber of deputies, but the subsidy was finally continued owing to patriotic motives. The same argument perhaps may impede the reported negotiations of Mr. Morgan.

Chinese Cemetery Planned.

Doylestown, Pa., May 15.—A Philadelphia attorney has purchased a farm of forty-eight acres in Bensalem township for a syndicate which proposes to establish a Chinese cemetery. It will be the only cemetery of its kind east of the Rocky mountains, and its projectors state that it will have one or more temples.

HAITI'S REVOLUTION.

Warships Will Back the Claims of General Firmin.

STRUGGLE OVER PRESIDENCY

Released Political Prisoners and Drunken Soldiers Parade the Streets of Port au Prince and Terrorize the Citizens.

Port au Prince, Haiti, May 15.—Admiral Killick, commander of the Haitian fleet, has started for Cape Haitian with the Haitian warships Crete a Pierrot and Toussaint l'Ouverture, having declared himself in favor of General Firmin, the former minister of Haiti at Paris, who is at the head of the revolutionary forces in the northern part of the island.

The northern revolutionists have seized the custom houses of Cape Haitian, Port de Paix and Gonaves, and are collecting duties. Protests against this action on the part of General Firmin have been entered by the National bank and the diplomatic corps.

A severe engagement between the northern revolutionists and the southern forces, meaning the troops from Port au Prince and the cities of its vicinity, is expected to take place very soon.

A steamer from Kingston, Jamaica, is expected here, bringing a number of Haitians who have been in exile. Among them are MM. Fouchard and Senegue Pierre, two more candidates for the presidency in succession to General Sam.

Sam Still in Harbor.

The French steamer Olinde Rodrigues, on which ex-President Sam has embarked, is still in the harbor of Port au Prince. She was to have sailed, but was detained by the French minister, M. Deprez. She will remain here until a foreign warship reaches Port au Prince. The absence of a warship is causing great uneasiness in the foreign colony here.

After the embarkation of General Sam all the political prisoners were released from prison here, and they, with groups of drunken soldiers, paraded the streets. From time to time shots were fired, and it was feared that the plundering of stores and residences would follow.

The provisional government constituted by M. Boisrond Canal is attempting to control the situation, but General St. Felix Calin, the district commander; General Kebreau, the chief of police, and M. Polynice, the communal magistrate, are the only officials who appear to be exercising authority. They formed a corps of respectable citizens and succeeded in disarming most of the dangerous characters. As a result the night was much quieter than it would otherwise have been.

Kansas Drought Broken.

Wichita, Kan., May 15.—A heavy rain has fallen throughout this section. At Colwich, near Wichita, a fall of three inches was recorded. Wheat will fill out more fully, and corn has been given a beneficial start.

Death Claims a Bridegroom.

Ohllia, Ont., May 15.—David Byers and Mrs. Josie McDonald, a widow, were married here. While returning to their future home in Atherley the carriage upset, and Byers was thrown in a ditch and killed.
